Enclosures

KJL steel boxes

For the AC and DC combiner boxes beside the inverter.

The box keeps water, dust and hands away from live parts for the life of the system.

What we fit

Enclosure	KJL, steel

Why we pick it

- Steel stands up to heat and knocks better than plastic, and gives a solid earth point.
- Sized with room inside, so breakers and surge protection run cool and can be serviced.

For prices and a design for your site, book a consultation at www.solaress.org or LINE: solaress1. All qualifications and certificates will be furnished upon request or upon completion of contract.
